Net sales	19,100	20,138			
Operating income	-1,800	1,109			
Operating income ratio	-9%	6%			

In this fiscal year, we are earnestly implementing measures to boost brand power and strengthen promotional activities, and we are seeing a higher ratio of resort weddings, according to the 2013 survey on wedding trends by the bridal magazine *Zexy*. Noteworthy developments, such as salon restructuring under our sales network expansion strategy and the opening of new chapels, have drawn attention and attracted more customers.

However, the majority of these sales opportunities will not have an impact on business results until next fiscal year or later, therefore, the number of wedding contracts for the current fiscal year will likely fall below that of the previous fiscal year. Also, given the one-time loss resulting from restructuring of the wedding salon network and uncertainty over fluctuating exchange rates, the full-year results forecast announced earlier will be revised.
